Rearrange the following six sentence (1), (2), (3), (4), (5) and (6) in the proper sequence to form a meaningful paragraph ; then answer the questions given below them.

- A.** There are a number of items in the atomic energy programme which are being made indigenously.
- B.** Given the overall energy situation in India, the use of nuclear power in some measure is inescapable even while thermal and hydrogen power continue to be the dominant elements.
- C.** However. commercial aspects of exploiting nuclear capabilities, especially for power-generation programmes, have been recently given high priority.
- D.** Atomic energy programmes have been subject to serve restrictions for very obvious reasons as the Department of Atomic Energy is becoming self-reliant in areas in which only a few countries have such capability.
- E.** Even to meet these nuclear power requirements, India critically requires a commercial level power-generation capability with its commensurate safety and nuclear waste management arrangements
- F.** Thus, in the Indian context energy security is also crucial, perhaps much more than it is for the U.S.A. because India imports a good part of its crude oil requirements, paying for it with precious foreign exchange.

Solutions (6 to 10)

Sentence B introduces the topic of discussion i.e. scenario of energy situation in India. Sentence D should follow it as it tells us about the restrictions in Atomic Energy Programme and that some countries are getting self-reliant in it. Sentence A follows it as it tells the reason why few countries mentioned in D are getting self-reliant as there are items which are made indigenously. C changes the topic of discussion by stating that commercial aspects of exploiting nuclear capabilities are given high priority. Sentence E states that to meet requirements stated in C, India needs commercial level power-generation capability and hence should follow C. F concludes the paragraph by stating that for India energy security is crucial as it imports crude oil and pay for it by precious foreign exchange. So, the sequence is BDACEF.
