- A. It is advisable to practice this kind of jumping at first without a run.
- B. The pole which is used for the exercise should be of sound ash, rounded throughout its length.
- C. For this purpose he who is about to jump fixes the end of the pole in the ground in front of him.
- D. It should be in proportion to the height of the jumper and the space to be jumped over.

- A BDAC
- B DBAC
- C BADC
- D DACB

Answer: A

Explanation:

On carefully reading the sentences we see that the topic of the discussion is about the pole leaping exercise. Thus sentence B which introduces the pole must be the starting sentence. 'It' in sentence D refers to the length of the pole as described in sentence B. Thus sentence D logically follows sentence B. Sentence A gives advice about how to start with the exercise and sentence C further adds information. Thus AC is a pair and must come after D.

Hence, the correct order of the sentence is BDAC.

Hence, option A is the right answer.

In sentence B the author substantiates his claim by giving details about knowledge of astronomy of the boys. Thus B must come after C. According to sentence D the boys were introduced to the telescope by their father, but sentence A points out the disappointment of the boys due to the financial constraint in buying one telescope. Thus DA is a pair which must follow after sentence B.

Hence, the correct order of the sentence is CBDA.

On carefully reading the sentences we see that the topic of the discussion is about Walter being viciously attacked by a vulture. Thus sentence D which introduces the topic must be the starting sentence. Sentence C gives further details about how Walter tried to save himself but failed. Thus, C must be directly after D. Sentence A tells how Walter had fewer hopes of saving himself and sentence B gives the reason why the hopes of continuing the struggle were less. Thus AB forms a pair and must come directly after C.
